

I would like to state that our local radio stations of Quantum Communications in Florence, SC, are wonderful supporters of the McLeod Foundation and our cause. We are a Not For-Profit Organization that raises money for many different health areas such as Children's Health, Cancer, Diabetes, Hospice Care, and much more. Being the Children's Hospital Fund Manager, I work with Quantum on several different events and they put in 100s of hours for us. They are always willing to get involved and make a difference. Not only do they get things out on the air for us, they care enough to get involved themselves and make the community care about our efforts. It is nice to have a media partner we respect, enjoy working with, and cares about the good of our community. They truly help make a difference!

Sincerely,

Davis Sawyer

McLeod Children's Hospital Fund Manager
